To whom it may concern

MAINTENANCE OF ACCESS CONTROL AND SERVEILANCE SYSTEMS AT ARNOT.

C3 Shared Services have been engaged with a contract at Arnot Power Station for the past five (5) years. The service given during this period was of a very high standard. They are certainly experts in their field of service and are very reliable. They have a short response time and do all possible to keep the systems working 100%.

They adhere to the contract rules and keep us updated at all times. Their technician is willing to take the extra step to satisfy the customer with good reliable service.

They also have a contract to do our second phase fire protection and public announcement system.

The first phase was done with high standards and in the given time.

I could just say that I would recommend them to any person who requires this type of service. Hence we at Arnot have just signed a new five (5) year contract with them to do our maintenance on the system.

Yours sincerely

JAF Tosen
ELECTRICAL CONTRACT SUPERVISOR: ARNOT
